Shipping Services

A Wide Range Of Maritime Services

portfolio

Introduction

About Pegasus

A wide range of maritime services ..

- Pegasus Shipping Services (Egypt) offers a comprehensive maritime strategy together with wide range of services.
- The most important point we focus on, is how to serve ships & operators & owners with excellent and efficient services.

What does this mean for our customers ?

We are where our customers need us to be – whether this is in a remote/difficult location and Pegasus Shipping Services is financially secure and prepared to invest her services now and in future for keeping customers always satisfied.

Building enduring client relationships

- We build a long term strategic relationships with our clients, which enables them to outsource back office maritime activities, especially port call management. This allows us to gain a fundamental understanding of our clients' businesses and combined with an in-depth knowledge of the maritime industry.
- We are able to develop integrated solutions that are focused on maximising efficiencies within their operations, improving both business performance and profitability.

VISION AND MISSION

- **OUR VISION :**

Is to uphold our prime position in Egypt's maritime industry & to use our influential connections & international coverage, wealth of local knowledge & experience to continue to improve & expand our services not only for our benefit, but also for the benefits of our clients & principals without whom we can never realize our Mission or Vision.

- **OUR MISSION :**

Is to provide you, our clients & principals, with the highest standards of quality, professional integrity, and innovative solutions, to add tangible value to your business through offering integrated shipping and logistics services at highly competitive rates, and to strive to maximize your objectives.

Services Shipping

Suez Canal Transit

Providing you with the following :

- Accurate Performa D/A for calling vessels either at Suez Canal (or) any of our Egyptian ports, in accordance with original official invoices & vouchers will be received from port authorities and concerned parties.
- Toll calculator, complete Suez Canal Transit guide, as well as the latest new circulars and traffic updates.
- The best possible service 24/7, all year around.
- Pegasus Shipping Services guaranteeing an exclusive services experience for your calling port at any time.

OWNERS PROTECTING AGENTS

- We are acting as owners protecting agent when other agents are appointed by counterparts, having been entrusted with this role we entirely cover vessels' status during port stay, reporting relevant prospects and events to our principals while also carrying out all relevant matters that we may be assigned of.

Cargo Export

- The Mission of Pegasus in Export field to embraces development of international business, contribution to growth of Egyptian exports, and strengthening Egypt's international economic ties.
- The export development strategy is based on ensuring the company's competitive advantages, researching in contemporary trends, and achieving various criteria such as: improving employment opportunities, opening up new markets for local producers & suppliers and building their capacity, in addition to increasing domestic production that would improve the economy and development of our country, also budget that can change current products to suit new markets.

Crew Changes & Marine Air Ticketing

- **You can rely on Pegasus**

Pegasus ensures a smooth and punctual crew movement in all the Egyptian ports.

- **Visa :**

- Entry visa for European and USA citizens is not required, whereas visas for other nationalities can be granted on arrival at Cairo airport. However, it is recommended that visas be obtained prior to departing their country to avoid any delays. For certain countries (India, Pakistan, Bangladesh, Phillipine, Sri Lanka and Somalia) entry visa is required before arriving Cairo.

- **Marine Air Ticketing :**

- As one of the major providers of total shipping solutions in Egypt, we have pioneered as the sole agency offering marine travel services in order to assert our vow of offering the shipping world comprehensive services.
- Shipping operates 24 hours a day, which is why we have marine specialists on hand every hour of the day to handle the toughest challenges with regard to last minute changes in schedule.
- Your crew needs to board on time and travel home in time with no delay. Realizing this need, we have introduced a new specialized service in Egypt, “Home to Cabin – Cabin to Home”, for crew signing on/off in all the Egyptian ports.

BUNKER & LUBOIL SUPPLY

- In the field of bunkering, we have facilities to ensure a smooth bunker supply. Nominations for all grades of fuel oils or luboils can be fixed at any time, day or night, regardless of the time difference between Egypt and any part of the world.
- We can arrange for bunkering at Port Said & Suez & Damietta and Alexandria.
- We wish to point out that bunkers facilities are not available at all Red Sea ports.

Fresh Water Supply

- Arrangements can be easily made to supply vessels with whatever quantities of fresh water required.
- Supply is usually done by means of special barges, for vessels berthing inside port, or at anchorage area as per ship's standing position and circumstance.
- Notice must be given 24 hours prior to ship's arrival so that pre-arrangements can be completed.
- Cost of water supplies differ from one port to another and according to the place vessel is anchored inside the port.

Ship Yard & Docking Facilities

Ship Yard & Docking Facilities

We are contracting with floating docks in both ends northern and southern of the Suez Canal which means that all repairs and maintenance assignments can be carried out close to the shipping route and close to the oil industry.

Having direct access to the red sea at the southern entrance of the Suez Canal docks is a perfect tool to offer a wide range of services to international customers, marine operators' docks providing professional repairs, and maintenance within the fields of :

- Maintenance of hull and steel structures
- Surface treatment, grid blasting, tank coating and painting.
- Maintenance and upgrading of information technology electrical, electronic as well as navigation systems
- Voyage repairs and machine inspections

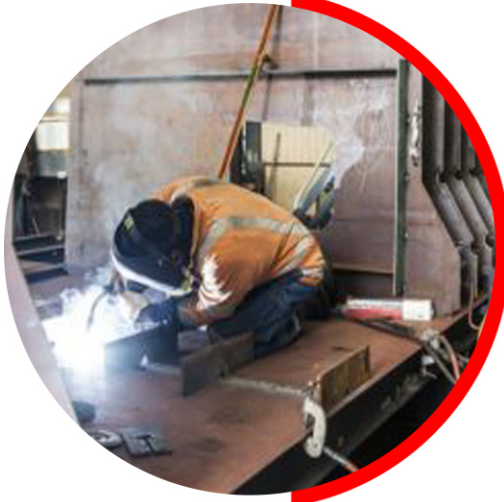

Floating dock has lifting capacity of 55.000 tons which is really rare in this part of the world.

Heavy sections can also be handled without any problems by the gantry crane with a lifting capacity of 250 tons, with a lift period of less than 2 hours with a full load 55.000 tons, operations can be initiated with limited loss of up-time.

The 302 meter long and 56 meter wide pontoon deck ensures outstanding docking capacity.
